

# Powering the Community

**On April 1, 2003, Eastern Ontario Power, A FortisOntario Company, became the electricity distributor in the Town of Gananoque.**

**Recently Gananoque joined the growing number of communities, which include Fort Erie, Port Colborne and Cornwall in realizing the value of FortisOntario's commitment. This commitment to serving communities with a strong local presence is fueling our growth.**

At FortisOntario we remain committed to establishing partnerships with Ontario municipalities and their local utilities that leverage our collective synergies and knowledge to eliminate redundant costs and streamline local service delivery.

To learn more how your municipality can better face the challenges of providing energy services and realize a better financial return for your utility assets, please contact:
