

Effective May 1, 2010

Cost of Power (Regulated Price Plan)

Up to certain threshold	\$/kWh	0.065
Over threshold	\$/kWh	0.075

For residential RPP customers the threshold has been set at 600 kilowatt hours during the summer season (May to October) and 1000 kilowatt hours during the winter season (November to April). The threshold for non-residential customers that are eligible under the RPP will remain at 750 kilowatt hours per month.

These Cost of Power (Regulated Price Plan) rates and thresholds are set by the Ontario Energy Board and are subject to change.
